## Comcast Completes Network Expansion Connecting More in Colerain Township

*160 homes and businesses in Colerain Township can now access full suite of Xfinity and Comcast Business services*

**PITTSBURGH, PA (August 29, 2022)** – Comcast today announced the completion of the expansion of its smart, fast and [reliable](#) fiber-rich network to more than 160 homes and businesses in Colerain Township. The project adds to Comcast’s ongoing investment in Lancaster County and throughout eastern and central Pennsylvania.

These new customers in Lancaster County now have access to the full suite of Xfinity residential and Comcast Business services, including residential broadband Internet speeds of up to 1.2 gigabits per second (Gbps) for residences and up to 100 Gbps for businesses.

“We are proud to have the chance to be a part of bringing increased connectivity to the residents of Colerain Township and Lancaster County,” said Toni Murphy, Senior Vice President of Comcast’s Keystone Region. “Having access to a reliable network that delivers speed, security and functionality is a game changer when it comes to our day-to-day lives – making everything from ordering school supplies, to applying for jobs, or connecting with family that much easier and better.”

“Access is the first step to quality education and information, and your ZIP Code should not predetermine your resources,” Speaker Bryan Cutler (R-Peach Bottom) said. “I want to thank Comcast’s continued efforts to ensure more and more Pennsylvanians have access to broadband Internet services. This is a great opportunity for everyone in Colerain Township, in particular students and future students who will have tools available to them to pursue their educational goals.”

“Colerain Township is thrilled to welcome Comcast to the community to provide residents and businesses with another option when selecting their Internet provider,” said Scott E. Shoemaker, Chairman of the Colerain Township Board of Supervisors. “This expansion will make Colerain Township an even more attractive place to live and work by ensuring access to a reliable network for everyone, which is more important than ever.”

Residents can [click here](#) to see if their address is included in the expansion project. Residents who are currently served by Comcast can visit [Xfinity.com](#), call 1-800-XFINITY, or visit our Xfinity Store at 1571 Fruitville Pike in Lancaster to inquire about service, or learn more about the federal government’s [Affordable Connectivity Program](#) (ACP), which provides eligible households with up to \$30/month toward their Internet and/or mobile service (\$75/month on Tribal lands). The credit can be applied to any tier of Xfinity Internet service, including [Internet Essentials](#), along with mobile service through Xfinity Mobile.

Residential customers in these areas will be able to take advantage of Xfinity’s full suite of Internet products, including:

- **Supersonic WiFi:** Advanced WiFi technology from [powerful gateways](#) capable of delivering gigabit speeds to support the ever-increasing number of connected devices in homes.
- **Advanced Security:** Help loved ones stay safe and secure online with [xFi Advanced Security](#), included at no extra cost with an xFi Gateway. Advanced Security helps protect customers’ devices

from billions of cyberthreats a year, and customers can add xFi Complete to extend that security on the go.

- **Powerful Connection:** The newest Gateway provides a more reliable connection for all connected devices. And with xFi Complete, get wall-to-wall WiFi coverage throughout the home, with an xFi Pod included if recommended.
- **Unprecedented Control:** [xFi](#), a digital dashboard to control the home WiFi network that includes Advanced Security protecting every device on the network from malware and security threats.
- **Xfinity Mobile:** A mobile service built for the way consumers use mobile today, with the Internet at the core of the experience, Xfinity Mobile can save customers hundreds a year on their mobile bills.
- **Ultimate Entertainment:** [Flex](#), a free 4K platform for Internet-only customers that seamlessly delivers streaming content.

For local businesses, Comcast Business offers a suite of connectivity, communications, networking, cybersecurity, wireless, and managed solutions to help organizations of different sizes prepare for what's next. Powered by the nation's largest Gig-speed broadband network, and backed by 24/7 customer support, Comcast Business is the nation's largest cable provider to small and mid-size businesses and one of the leading service providers to the Enterprise market. Comcast Business has been consistently [recognized by industry analysts and associations](#) as a leader and innovator, and one of the fastest growing providers of Ethernet services.

From 2017-2021 alone, Comcast has invested nearly \$20 billion to evolve and grow its national network and has built 50,000 new route miles of fiber into its network. This includes expansion to many new areas in central and eastern Pennsylvania, including [Wilkes-Barre](#), [Courtdale](#), [Pringle](#), [Ephrata](#), [Lititz](#), [Kingston](#), and multiple municipalities in Luzerne, Berks, Columbia, Montour, Northumberland and Sullivan counties. And Comcast customers have been able to enjoy speed increases at no additional cost, the most recent of which was [announced earlier this year](#).

Comcast is also deeply committed to advancing digital equity in the communities it serves. The company has installed nine Lift Zones in Lancaster County at the Children Deserve A Chance Foundation, Columbia Clubhouse, Emerald Foundation Community Campus, Hill Clubhouse, Jack Walker Clubhouse, Lancaster Recreation Center, South East Club House, Tec Centro Southwest and the YWCA Lancaster, providing free WiFi service to help these community centers promote digital learning. Lift Zones are part of [Project UP](#), Comcast's comprehensive, 10-year, \$1 billion commitment to help build a future of unlimited possibilities and the continuation of the company's long history of giving back to communities where it provides service and where its employees live and work.
